M

UNIVERSITY OF
MICHIGAN

5 Courses

Introduction to Data Science in
Python

Applied Plotting, Charting &
Data Representation in Python

Applied Machine Learning in
Python

Applied Text Mining in Python

Applied Social Network Analysis
in Python

06/16/2020

Raimond Reichert

has successfully completed the online, non-credit Specialization

Applied Data Science with Python

The 5 courses in this University of Michigan specialization introduce learners to data science through the python programming language. This skills-based specialization is intended for learners who have a basic python or programming background, and want to apply statistical, machine learning, information visualization, and text analysis techniques to gain new insight into their data. In the final course, students will work on real-world data analysis projects, building a portfolio which showcases their work while at the same time helping real clients gain a better understanding of their data.

Christopher Brooks
Research Assistant
Professor
School of Information

Kevyn Collins-Thompson
Associate Professor
School of Information

Daniel Romero, Ph.D.
Assistant Professor
School of Information
University of Michigan

V. G. Vinod Vydiswaran
Assistant Professor
School of Information
